Forecast for Tuesday 29 Jun 2021

Weather: Overcast and rather dull for much of Tuesday morning with some outbreaks of light rain and patchy low cloud on summits. Any rain will ease by mid-morning with the cloud breaking to give some bright or sunny spells by early afternoon. Some spells of strong sunshine are likely at times. Remaining dry, with clear spells into the evening.

Chance of cloud free mountain/hill tops above 800m: 60% improving to 95% or better in the afternoon.

Visibility: Generally good in valleys through the morning, but some local deteriorations to moderate in rain, with some patchy cloud on slopes above 800m at first, covering the higher peaks. Excellent visibility during the afternoon and evening with any cloud clear of the summits.

Meteorologist's View

Some murky conditions are likely on some north and northeastern slopes at times during Tuesday morning. Strong sunshine is expected during sunny periods in the afternoon and so sun protection is advised.

Forecast for Wednesday 30 Jun 2021

Weather: Dry with clear spells during the early hours, with some patchy fog and low cloud developing in valleys for a time around dawn. The morning will be dry with some sunny spells, but a few showers are likely to develop during the afternoon, these fading later to leave a dry evening with partly cloudy skies.

Maximum wind: Northerly 10-15mph.

Chance of cloud free mountain/hill tops above 800m: 70% becoming 95% or better by midday.

Visibility: Locally poor in any valley fog around dawn, and with some shallow banks of low cloud briefly bringing poor visibilities on slopes above 300m as the fog lifts and clears. Otherwise generally very good visibility at low levels with some patchy cloud briefly developing on slopes above 600-800m mid-morning, this lifting clear of the summits by midday, and with only brief temporary deteriorations in any afternoon showers.

Temperature: **Valleys:** Plus 11 Celsius becoming Plus 21 Celsius
At 800m: Plus 13 Celsius.
Freezing level: Well above the summits.
